

PARENTS NEEDED FOR ARPKD STUDY

WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The purpose of this research study is to better understand ARPKD (Autosomal Recessive Polycystic Kidney Disease) from the parent/guardian perspective and help patients as they progress from pediatric to adult care.

WHO CAN BE A PART OF THIS STUDY?

This study is open to parents/guardians of adolescents and young adults with ARPKD who are between 16 and 30 years old.

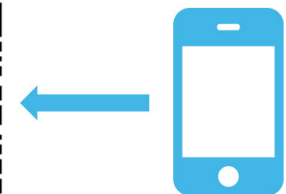

WHAT WILL PARTICIPANTS BE ASKED TO DO?

Parents/guardians will be invited to take part in a single one-on-one online interview with a member of the research team. These interviews will last about 60 minutes. Before the interview, parents/guardians will be asked to complete a demographic survey.

Parents/guardians will be compensated for their time and efforts.

I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more, please contact Dr. Erum Hartung's study team at: **ARPKD_Studies@chop.edu**
